

Gungun Agrawal

📍 Ghaziabad, Uttar Pradesh | 📞 92889843764 | ✉ agrawalgungun124@gmail.com |  LinkedIn |  GitHub

Python Developer with hands-on experience in Python automation, machine learning, NLP, and web application development. Skilled in Python, Django, Scikit-learn, Selenium, Pandas, and NumPy, with a strong foundation in data structures, OOP, and SQL. Experienced in building data-driven applications and automation solutions.

EDUCATION

ABES Engineering College May 2021 - June 2025
Bachelor of Science in Computer Science and Engineering (AIML) | CGPA: 7.9 / 10 Ghaziabad, Uttar Pradesh

WORK EXPERIENCE

Nagarro Nov 2025 - Present
ServiceNow Developer

- Developed and configured ServiceNow applications and workflows based on business requirements.
- Worked with ServiceNow modules, scripting, and platform configurations to support application functionality.

Sequelstring Nov 2024 - Oct 2025
Python Developer

- Automated web data extraction using Python and Selenium, streamlining data processing and reducing manual effort.
- Developed Python desktop automation scripts using PyAutoGUI to handle repetitive tasks and improve workflow productivity.

PROJECTS

Hand Gesture Recognition System | MediaPipe, TensorFlow, Python
Developed a hand gesture recognition system using computer vision and machine learning techniques to detect and classify hand gestures.

E-Commerce Website | Python, Django, HTML/CSS, SQLite
Developed a full-featured fashion e-commerce website using Django, implementing user authentication, product browsing, shopping cart, and checkout functionality. Integrated Django Admin for product and user management.

Sentiment Analysis on Social Media Reviews | Python, Scikit-learn, Hugging Face Transformers, NLP
Developed a sentiment classification model to analyze social media and product reviews, achieving 92% accuracy in classifying positive, negative, and neutral sentiments. Deployed the model as a Streamlit web application for real-time sentiment prediction.

TECHNICAL SKILLS

Languages: Python, C, C++, Java, SQL, HTML, CSS
Frameworks & Libraries: Django, Flask, Scikit-learn, Pandas, NumPy, Selenium, NLTK, Hugging Face Transformers, LangChain
Machine Learning: Regression, Classification, NLP, Data Preprocessing, Feature Engineering
Databases: MySQL, PostgreSQL, SQLite
Tools: Git, GitHub, VS Code, Postman, Jenkins
Core Concepts: Data Structures & Algorithms, OOP, Data Science, Machine Learning

ACHIEVEMENTS

- Solved 300+ questions on LeetCode, demonstrating consistent practice in Data Structures and Algorithms.
- Participated in the Flipkart GRID hackathon.
- Certificate of Achievement for completing the Cyber Security Awareness Program at Innovative Ideas Infotech.
